These plot data were generated under contract for the USGS-NPS Vegetation Mapping Program by the Environmental Systems Research Institute, Inc., in conjunction with The Nature Conservancy. Work was performed under the direction of the USGS Biological Resource Division's Center for Biological Informatics.

Thirty five sites were measured for vegetation and topological information. These data were used to create the vegetation classification for the vegetation mapping portion of the project. The vegetation classification is an extension to the Federal Geographic Data Committee's National Vegetation Classification System. For each plot site code, site name, GPS coordinates, and physical factors were recorded (elevation, slope, aspect, topographic setting, landform, surface materials, soil texture and drainage, leaf characteristics, and physiography). For more information refer to the metadata.

Disclaimer: These data have been generated by private organizations under contract with the U.S. Geological Survey's Center for Biological Informatics. Although all data have been processed successfully on a computer system at the CBI, no warranty, expressed or implied, is made regarding the accuracy or utility of the data on any other system or for general or scientific purposes. Any person using this information presented here should fully understand the data collection and compilation procedures, as described in the metadata, before beginning analysis. The burden for determining fitness for use lies entirely with the user.

● Location of Field Plots

	<i>Populus fremontii</i> - <i>Salix goodingii</i> Woodland	7.4 Acres
	<i>Populus fremontii</i> / <i>Hordeum jubatum</i> Woodland	5.9 Acres
	<i>Populus fremontii</i> / <i>Prosopis velutina</i> Woodland	1.0 Acres
	<i>Juniperus erythrocarpa</i> - <i>Ceanothus holacantha</i> Woodland	8.0 Acres
	<i>Gelb's reticulata</i> - <i>Quercus turbinella</i> Woodland	3.5 Acres
	<i>Ceanothus holacantha</i> / <i>Aristida purpurea</i> Woodland	64.0 Acres
	<i>Larrea tridentata</i> / <i>Aristida purpurea</i> Shrubland	122.7 Acres
	<i>Atriplex canescens</i> / <i>Muhlenbergia porteri</i> Shrubland	5.2 Acres
	<i>Chilopsis linearis</i> Alliance	7.5 Acres
	<i>Prosopis velutina</i> / <i>Gelb's reticulata</i> Shrubland	42.3 Acres
	<i>Prosopis velutina</i> / <i>Hordeum jubatum</i> Shrubland	27.8 Acres
	<i>Prosopis velutina</i> / <i>Gutierrezia sarothrae</i> Shrubland	60.5 Acres
	<i>Prosopis velutina</i> / <i>Distichlis stricta</i> Herbaceous Vegetation	7.8 Acres
	<i>Typha angustifolia</i> Herbaceous Alliance	42.1 Acres
	<i>Muhlenbergia aspenifolia</i> - <i>Eleocharis parshii</i> Herbaceous Vegetation	38.0 Acres
	<i>Cynodon dactylon</i> Herbaceous Alliance	30.3 Acres
	<i>Aristida purpurea</i> - <i>Krameria parvifolia</i> Herbaceous Vegetation	23.5 Acres
	Low Temperate Intermittently Exposed Annual Forb Vegetation	1.1 Acres
	Semi-cultivated Temperate or Subpolar Perennial Forb Vegetation	4.3 Acres
	Semi-natural Temperate or Subpolar Perennial Forb Vegetation	1.6 Acres
	Intermittently Flooded Cold-Deciduous Shrubland	6.8 Acres
	Water	6.3 Acres
	Unvegetated/Land Use	30.3 Acres
	Tuzigoot National Monument Boundary
